

SUMMER ZOOLOGY CAMP 2019

Summer is just around the corner, so enroll your child in a summer he or she will never forget! Our newly designed camps feature lots of exciting animal interactions and fun activities that give your child an opportunity to be a real zookeeper!

We're excited to introduce two camper levels to accommodate all children!

ZooKids: Campers ages 5 to 9 will love this fun and exciting look into the world of animals from big to small, and scaly to fluffy, and everything in between! Campers will spend the week exploring the diversity of wildlife, animal diets, habitats, enrichment, and even star in a camper-led animal

ZooKeepers: Campers ages 9 to 14 will get an introduction to the knowledge and experience needed to work with animals. Campers will study the differences between animal groups, diets, care, and enrichment, which will give them the understanding to perform a wildlife presentation for their family and friends on the last day of camp.

Week	Dates	Level	Ages
1	June 10-14	ZooKids	5 - 9
2	June 17-21	ZooKeepers	9 - 14
3	June 24-28	ZooKids	5 - 9
4	July 8-12	ZooKeepers	9 - 14
5	July 15-19	ZooKids	5 - 9
6	July 22-26	ZooKeepers	9 - 14

Zoo Camp Sessions Are:

- Led by our friendly and knowledgeable wildlife biologists
- Limited to 10 campers each session to increase the interactivity
- Meets Monday through Friday from 9:00 am to 1:00 pm
- Culminates with a camper presentation for the campers' family & friends
- Just \$395 per camper and includes a WLC Zoo Camp t-shirt!
